ICS 7180-88
19 September 1988

L-12-SR

NOTE FOR: DDR&E Task Force

25X1

FROM: DDR&E/ICS

25X1

SUBJECT: FEMA's Needs

25X1

1. This note asks for a speedy bit of your help. []

25X1

2. Last summer the Director of the Federal Emergency Management Agency (FEMA), Julius Becton, requested some assistance from the Intelligence Community in a letter, dated 9 June. A copy is attached. []

3. Subsequent to that letter, D/ICS hosted a meeting here at [] where General Becton and several FEMA officers briefed on FEMA's various missions.

[] Addressing FEMA's needs has been delayed long enough. []

4. I would appreciate it greatly if each element of the task force would take a copy of this statement of FEMA's needs and integrate it into your work without any further delay. It may be necessary for REO to have an officer watch over this account long enough for one iteration back to FEMA. While I think interactions with FEMA officers at the working level is fine, a response for General Heinz to General Becton may be attractive and/or necessary.

25X1

5. If I can do anything to help you, please let me know. []
